Mamman Ahmadu encouraged the new DG to train and retrain his procurement officers, as being acquainted with the procurement process will add value to the service. He pointed out that, the BPP is open for consultations and trainings.

He welcomed collaboration with NCDC to give Nigerians the best it deserves in the

areas of public procurement and disease control.

Earlier, the DG, NCDC said, his coming was informed by the fact that, there was need to acquaint himself with the Bureau and to seek for areas of collaboration for better service to the nation.

In another development, the DG, BPP has promised to collaborate with the Office of the Registrar, Environmental Health Officers Registration Council of Nigeria (EHORECON), for better environmental health service delivery.
